WHO CAN MISTAKE A WIG, however VV artiully prepared, for the natural and living growth of the hair. There is a dull dead look, an artificial stiffness about the counterfeit, which forbids its being mistaken for the genuine article. And yet in nineteen cases out of twenty, for one tenth o the money that a Wig costs, the bald scalp may be made to bring forth its own covering, instead of being beholden to any thatcher of sculls for a second hand adornment.

The vernal showers are not more conducive to vegetation than
is Jayne's Hair Tonic to the growth of the Hair. If sickness, or sorrow, or any other cause, has shorn your brow of its clus-tering curls, and thinned the once redundant side-locks which burst in such luxuriance from beneath your fashionable beaeer, Jayne's Hair Tonic will give life and vigor to the roots which still remain, and in an incredibly short space of time restore your 'Hyperion Curis' in all their pristine beauty. CONSUMPTION CAN BE CURED .- Of all remedies now known, there is but one that can be relied for the cure of that 'terror to the human race'—Consumpon! That remedy is 'SCHENCK'S Pulmonic Syrup.' In order that this may not be considered mere assertion, unsupported by facts, the reader is referred to a pamphlet, published, by the proprietor, which can be obtained gratis at any of his offices, in which can be found a number of cases substantiating the truth of this assertion. Also, may be seen at his office a number of certificases which have never yet been published, where individuals have been cared of Consumption after having been given up by their Physician and friends. It may not be amiss to state the reason of the great success of the Pulmonic Syrap. It is the most powerful purifier of the system known; it operates by assisting nature to expel the disease from the Langs, Stomach and Liver. Where there is hectic fever, night sweats, constipation, all usual symptoms of Consumption, the use of the Syrup removes the fever, stops the night sweats, and regulates the action of the bowels, making of the Lungs, and then expels it in the form of expectorated in matter; and it is truly astonishing what quantities of co. uption is expectorated by patients generally, who have taken the constant the names of sureties. JAYNE'S EXPECTORANT.—Look at our bills of mortality, and you will find that Consumption is more destructive to human life in this country than any other disease. We all know that cough, like the warning of the rattle-snake, always precedes, as well as accompanies this terrible scourge. It is a fai ripresumption that every Cough may terminate in Pulmonary disease, if not checked early, and where the risk is so great, the danger o imminent, it is astonishing that individuals should be found mad enough to neglect the means of cure. Dr. Jayne's Expectorant can be readily procured in any part of the United States, and the experience and voluntary testimony of thousands, the results of chemical analysis and of medical science, all point it out as the best preparation ever invented by man, for the cure of all diseases of the lungs, chest, wind-pipe, and other organs connected with the process of respiration.
